

Fire Light Tidbit Hydrangea in fall

**Fire Light Tidbit® Hydrangea** is the smallest and easiest of the hardy hydrangea and better still, packs a big punch of color. Large, lush panicles of white mophead flowers appear in early-mid summer, nearly hiding the lovely green foliage. As the summer progresses, they begin to develop bright pink and red tones, which keep it colorful right on up to the first frost. As fall begins, the leaves turn an amazing crimson as the flowers become white with pink centers. Amazing and beautiful! Thick, sturdy stems help to create a neat, mounded plant that's fantastic in landscapes and flower gardens.

### Flowers & Foliage:

White blossoms with green leaves in early-mid summer
